

MULTIFUNCTIONAL CENTER

YOUNGSTERS

Support, day care & stay

FOR WHOM

Our multifunctional center (MFC) supports **young adults** aged 12 to 21 years with a (neuro)motor disability.

OUR EXPERT TEAM

Our multidisciplinary team consists of several colleagues who work closely together.

- Occupational therapists, speech therapists and physiotherapists
- Orthopedagogues
- Community supervisors
- Nurses and doctors
- Social service

WHAT WE DO

Depending on what you and your family need, we provide:

- **General support:** in our center or at your home
- **Day care:** therapy and specific support during the day
- **Stay:** during school weeks, at weekends or during the holidays

In the MFC I learn how I can live more independently. My self-confidence has grown and I feel better about myself.

LET'S MEET

We try to identify your support needs through a personal introduction. Together we find out how we can meet your needs.

We work closely together with Secundair Onderwijs Dominiek Savio (secondary education).
